

Animation and Graphics Club

Animation and Graphics club was established in 2023 with the motto of developing animation and graphical skills among the students. The most important part of animation is jotting down one's ideas and drawing them out. The club has a vision of showing how the world of animation can be fun to manipulate.

The club planned to create and use games to build camaraderie and teach about animation by creating frame by frame animations. The club members work as a collective group and create an animation and compute the frames together. The club is planning to introduce an animation class room where the thoughts of the members move around, such as interior design classrooms. It is sort of gateway between classes and experience. The club was constituted with president, vice- president, secretary and treasurer as admin body.

Dr. K. Sujan Kumar (Faculty coordinator)
Professor
Dept. of S & H
